# Empowering Linguistic Proficiency: Enhancing English Speaking and Writing Skills through an Innovative and Interactive Platform

- The world is evolving, and so is the need for exceptional English speaking and writing skills

- Communication is key in presentations, pitching ideas, and delivering speeches under pressure

- Mastering English helps you excel in academic, professional, and social settings

Struggles faced by an English and non-English People

Common Non-English Speaker Struggles:

- Limited vocabulary and grammar knowledge
- Inability to express thoughts clearly
- Fear of making mistakes
- Struggling with idiomatic expressions

Common English Speaker Struggles:

- Developing concise and persuasive communication
- Enhancing public speaking and presentation skills
- Delivering a good speech under limited time

Technology is Evolving

Peter Wang @pwang · 1d

Um... I just had like a 20 minute conversation with **ChatGPT** about the history of modern physics. If I had this shit as a tutor during high school and college.... OMG.

I think we can basically re-invent the concept of education at scale. College as we know it will cease to exist.

💬 749   🔁 2,902   ♡ 18.3K   ⤴

Genevieve Roch-Decter, CFA ... · 16h

ChatGPT has now gone viral and reached 1 million users in just 5 days. For context, here's how long it took other products to reach 1 million users:

Netflix - 41 months
Twitter - 24 months
Facebook - 10 months
Instagram - 2.5 months

💬 7   🔁 155   ♡ 1,204   ⤴

Rob Lennon 🔲 | AI Whisperer ✓
@thatroblennon

Weak ChatGPT prompts tend to produce the most average, expected ideas.

Instead:
· Be specific
· Provide examples
· Ask for a type of information
· Define your desired outcome
· Define your audience

The more context you provide, the better the results.

4:21 PM · Jan 4, 2023 · **52K** Views

Prompt:

Problems we're trying to solve

MASTERING CHATGPT (OR SIMILAR LLMS) INTERACTIONS LEADS TO MORE EFFECTIVE COMMUNICATION AND BETTER RESULTS FROM THE AI.

DESCRIPTIVE WRITING SKILLS ENHANCE MIDJOURNEY-GENERATED IMAGE-TO-TEXT RESULTS, BOOSTING CREATIVITY AND ACCURACY.

CONFIDENT AND ENGAGING PRESENTATIONS ARE ESSENTIAL FOR CONVEYING IDEAS AND SECURING SUPPORT.
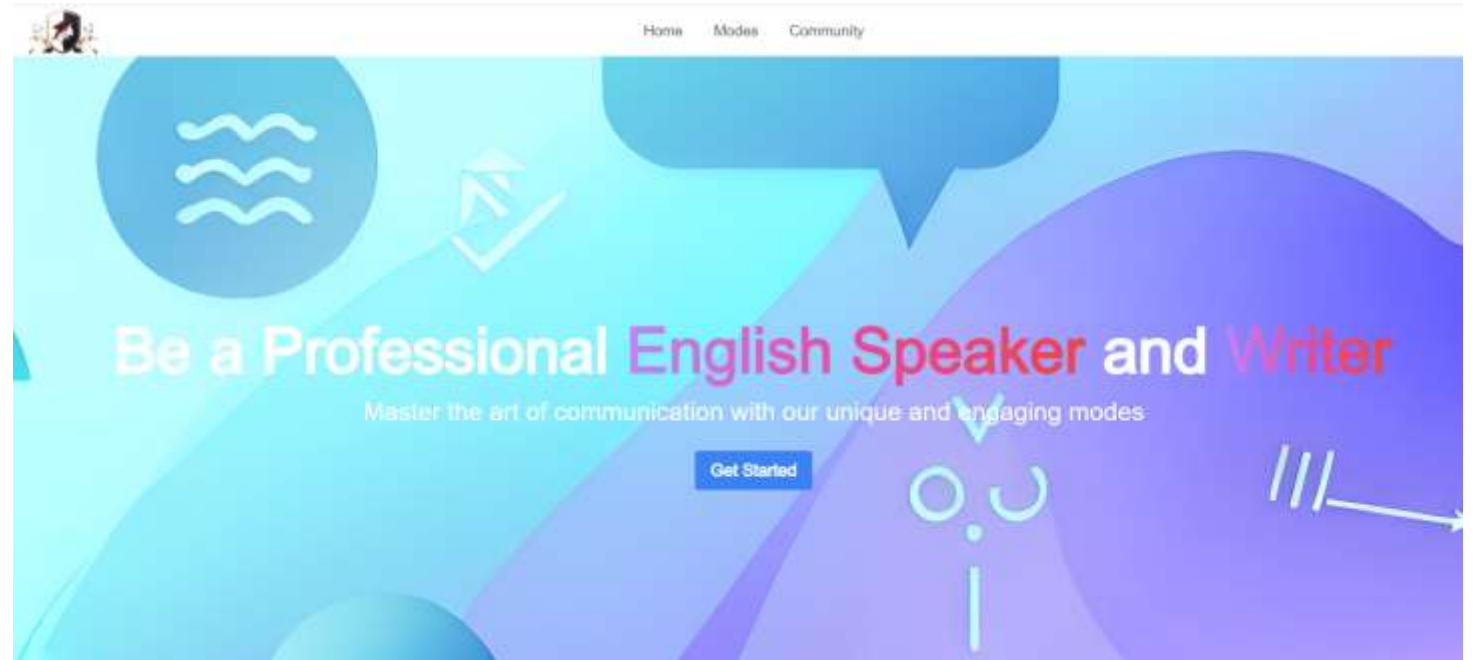

EFFECTIVE STORYTELLING SKILLS HELP PITCH IDEAS SUCCESSFULLY, CAPTURING THE INTEREST OF INVESTORS OR COMPANIONS.

QUICK-WITTED THINKING AND ELOQUENCE EMPOWER INDIVIDUALS TO DELIVER IMPRESSIVE SPEECHES, EVEN UNDER PRESSURE OR TIGHT DEADLINES.
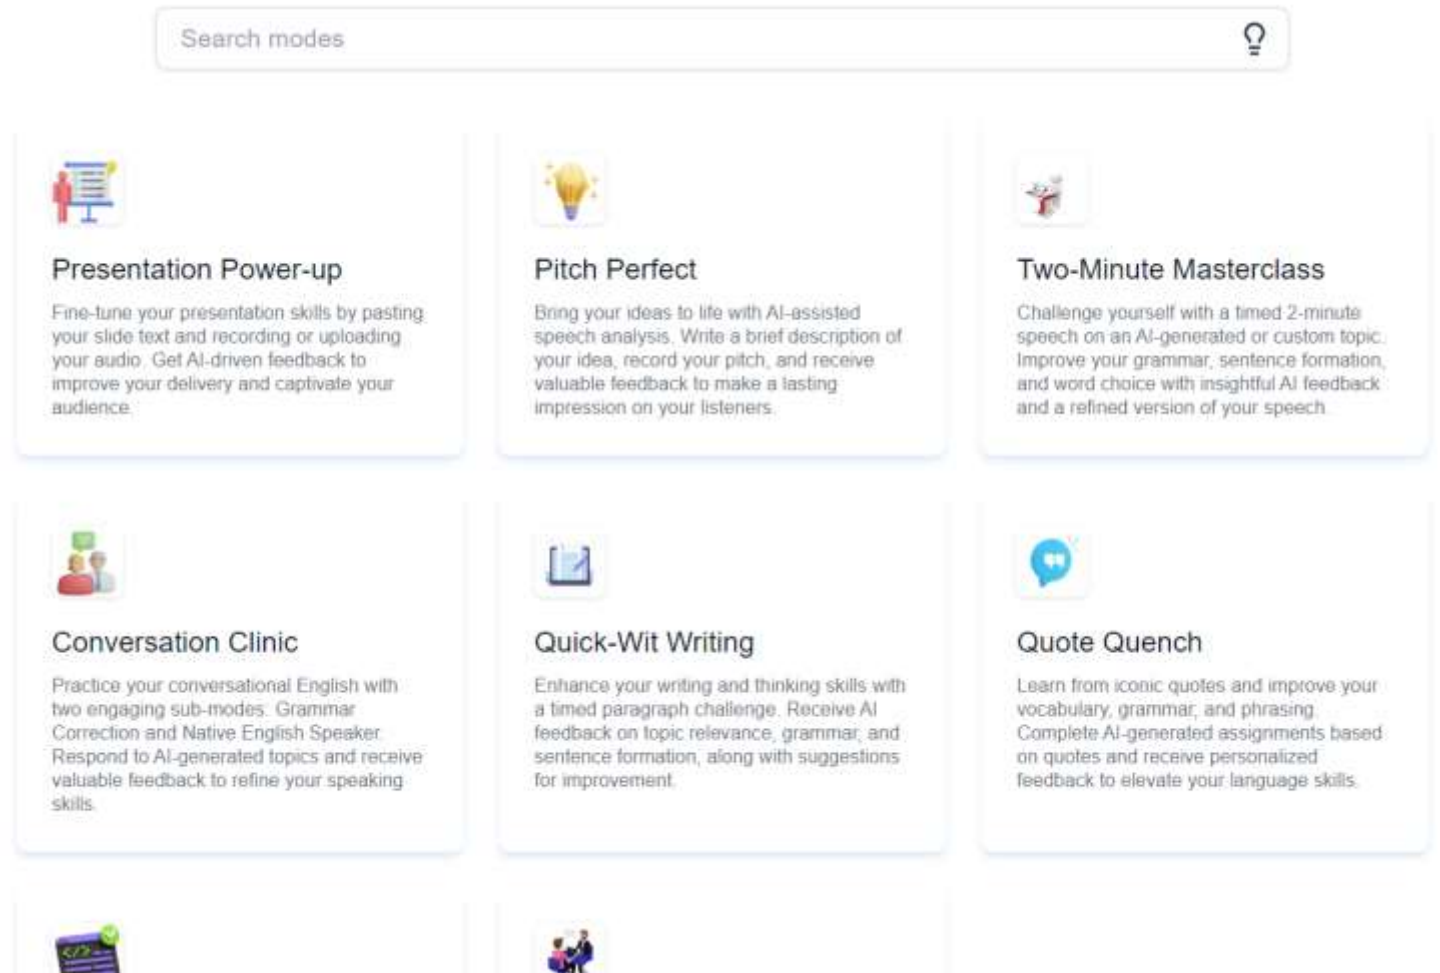

Our Website's Aim

- Help users become proficient in speaking and writing English
- Offer unique practice modes to improve various aspects of communication
- Empower users to excel in presentations, pitches, and speeches with confidence and elegance.

What's unique

- AI-driven feedback and improvement suggestions
- Wide range of practice modes tailored to different communication scenarios
- Engaging Community Chat for collaborative learning and resource sharing
- Speech-to-text analysis for immediate feedback

- Integration of famous quotes and excerpts for enriched learning experience

Search modes

Presentation Power-up
Fine-tune your presentation skills by pasting your slide text and recording or uploading your audio. Get AI-driven feedback to improve your delivery and captivate your audience.

Pitch Perfect
Bring your ideas to life with AI-assisted speech analysis. Write a brief description of your idea, record your pitch, and receive valuable feedback to make a lasting impression on your listeners.

Two-Minute Masterclass
Challenge yourself with a timed 2-minute speech on an AI-generated or custom topic. Improve your grammar, sentence formation, and word choice with insightful AI feedback and a refined version of your speech.

Conversation Clinic
Practice your conversational English with two engaging sub-modes: Grammar Correction and Native English Speaker. Respond to AI-generated topics and receive valuable feedback to refine your speaking skills.

Quick-Wit Writing
Enhance your writing and thinking skills with a timed paragraph challenge. Receive AI feedback on topic relevance, grammar, and sentence formation, along with suggestions for improvement.

Quote Quench
Learn from iconic quotes and improve your vocabulary, grammar, and phrasing. Complete AI-generated assignments based on quotes and receive personalized feedback to elevate your language skills.

How it Works

1
Choose a Mode
Select the mode that suits your learning needs and objectives.

2
Practice
Start practicing your English speaking and writing skills using our AI-powered platform.

3
Get Feedback
Receive personalized feedback from our AI to help you improve and refine your English skills.

4
Share and Grow Together
Engage in the community page, exchange resources, and learn from peers to boost your English skills.

Transcribed Text

Hello everyone, our project is basically empowering linguistic proficiency using with the help of interactive platform. So let me start with signifying the importance of speaking English. So as we know the world is evolving at a rapid pace and so is the need for exceptional English speaking and writing skills. And communication is a really key thing in making your presentations effective, pitching your ideas the way you want it to be and delivering speeches under immense pressure. And so this mastering English basically helps you excel in your academic, professional and social life.

Feedback on your speech

Feedback on Original Speech:

- The speech effectively conveys the importance of mastering English in today's rapidly evolving world and highlights the benefits it can bring in various aspects of life.

- The language used is clear and concise, but some sentences could be improved for better impact. For example, instead of **And communication is a really key thing,** it could be phrased as **Effective communication is essential.**

- To enhance the speech further, the use of statistics or real-life examples could be included to support the claims made.

Revised Speech with Improvements

Revised Speech: Hello everyone, our project aims to empower linguistic proficiency through an interactive platform. As we know, the world is evolving at a rapid pace, and exceptional English speaking and writing skills have become increasingly vital. Effective communication is key in making presentations impactful, pitching ideas convincingly, and delivering speeches confidently even under immense pressure. Mastering English not only helps you excel academically and professionally but also socially. For instance, it can enable you to build relationships, expand your network, and understand diverse cultures better.

Feedback on Revised Speech:

- The revised speech effectively addresses the feedback provided, with clearer language and better sentence structure.

- The inclusion of specific examples and benefits of mastering English helps to reinforce the importance of the topic.

- To further improve the speech, it could be concluded with a call to action or a question to engage the audience and encourage participation.

Benefits

Enhances communication skills: Presentation mode helps users practice and refine their spoken English, allowing them to communicate more effectively and confidently in various settings.

Feedback to Improve yourself: The AI provides feedback on users' grammar, vocabulary, and sentence structure, pinpointing areas for improvement and suggesting better alternatives.

Builds confidence: By practicing and receiving constructive feedback, users gain the confidence they need to deliver presentations, pitches, or speeches with poise and self-assurance.

Real-life applicability: Presentation mode equips users with the essential skills needed to excel in professional, academic, and social situations where effective communication is crucial.

Pitch Perfect

Pitch your Idea Mode

Drop your idea description here.

This will help to see whether your speech is relevant to your idea. Note: Your idea is not shared with anyone even with us.

Blogging Website for college where everyone including students, professors, and Ph.D. scholars has the option to write and post blogs/articles to share their knowledge, thoughts, and special moments so everything is shared and stored for the future generations to come making them more familiar with the college culture.

As we know, a lot of things happen in our college on a daily basis, be it in events, cultural activities, sports, alumni ceremonies, and research projects and final year projects. So the main theme of our website is to create a platform where all these events and knowledge can be shared across people in the college and also stored for the future generations to come. What I'm really appreciating about the benefits of having this website is, for example, take clubs. Every year, clubs do a lot of projects. If they somehow summarize them, like make blogs on the projects they do, then it will spread awareness among the college community that these clubs exist and they do some interesting projects which will eventually draw interest from people and maybe give them interest to join in those clubs. Also final year projects. Many people like if final year projects are summarized into blogs, then juniors might read them and get to know more, get to see all these final year projects and read them thoroughly and come up with more innovative and motivational projects. So these kind of benefits go on. So in summary, having such a website spreads unity among diversity and also make people know more about the college culture that exists in the college.

Feedback on your speech

Feedback on the speech idea: The speech idea of creating a blogging website for a college community is relevant and useful in promoting unity as well as preserving college culture. However, the language used in the speech can be improved by using more technical terms relevant to the IT industry. For instance, instead of using **platform, web application** can be used. Additionally, the benefits of the website can be better explained by providing specific examples of how it can be used to promote clubs and final year projects.

Revised version of your speech

Revised speech: Our college community can benefit greatly from a web application that serves as a blogging website. This platform will enable students, professors, and Ph.D. scholars to write and post articles that share their knowledge, thoughts, and special moments. With this website, we can promote unity among diversity and preserve our college culture for future generations to come. For instance, clubs can summarize their projects in blogs, which will spread awareness of their existence and spark interest among students. Final year projects can also be shared to inspire juniors to come up with more innovative and motivational projects.

How the revised version is better than the original version

Feedback on the revised speech: The revised speech does a better job of explaining the benefits of the website by providing concrete examples. However, there is still room for improvement in terms of language use. For instance, the term **web application** can be further explained to help investors or other people who are not familiar with IT terminology.

How the revised version is better than the original version

Follow-up questions that might be asked by investors: What is the estimated cost of developing and maintaining the website? How will you attract users to the website and ensure that they continue to use it? What measures are in place to ensure the security and privacy of users' data? How will you monetize the website?

Benefits

Pitch an idea mode helps users develop strong communication skills, enabling them to express their ideas clearly and concisely.

Practicing pitches with AI feedback allows users to gain confidence in their ideas and presentation abilities so are the chances to get the impression from the investors.

AI analysis of speech helps users refine their vocabulary and grammar, making their pitches more polished and professional.

Helps in bringing improvement, impression, and also investment from the investors/companions.

Speak for 2 min Mode

Welcome to the Speak for 2 min mode

Rules

1. Click the "I am ready" button
2. The moment you press that button you'll be presented with a topic to review for 5-10 sec and a stopwatch timer.
3. When you feel you're ready, start recording your speech and try to complete it in under 2 min (recording will be automatically stopped if you exceed the time limit)
4. Click start analysis to see your results. You can also listen to your speech and see the transcript.

4 simple rules! That's it.

Perks

- Swift Thinking: Train your mind to think on its feet.
- Eloquence Boost: Sharpen your verbal skills.
- Confidence Builder: Face your public speaking fears.
- Time Management: Deliver speeches within a tight timeframe.
- Engaging Storytelling: Captivate audiences with compelling narratives.
- Persuasive Speaking: Convince others to see things your way.

I'm ready

Go on, Speak for a min

Topic: Time Travel
Description: If you could go back in time to any era, where and when would you go? What would you do? Would you change anything? Or would you just observe and learn?

Time up...

Transcribed Text

As a person, if I go back in time to any era, I would probably go into, I would probably be in the decade where Newton has discovered gravity. I think out of all the concepts that I have learned in school and college, the gravitational concept is the one that quite have an impression on me. So I would probably go and try to replace Newton under the tree and make myself sit in there and discover the gravity on my own. I know that sounds a bit Willem type, but yeah, probably Willem type, but making the discoveries as Newton would be a great, you know, enthusiastic thing for me and probably makes me more excited to bring in more innovations like Newton. Just kidding, but probably I will see the apple falling on Newton's head at that point of time. Thank you for intervening.

Feedback on your speech

The speech effectively addresses the given topic of time travel and provides a specific era and reason for the chosen time period. However, there are some minor grammatical errors and awkward sentence structures that could be improved upon. Additionally, the use of the term **Willem type** may not be clear to all listeners and could benefit from clarification or replacement with a more universally understood phrase.

Revised version of your speech

Revised version: If given the opportunity to time travel, I would choose to go back to the moment in history when Newton discovered gravity. Out of all the concepts I have learned in school and college, the idea of gravity has left the strongest impression on me. I would relish the chance to sit under that tree and make the discovery for myself. While this may sound like a lofty goal, I am truly enthusiastic about the idea of bringing innovation and discovery to the world, just as Newton did. Perhaps I would even witness the apple falling on Newton's head, an event that has become synonymous with the discovery of gravity.

How the revised version is better than the original version

The revised version of the speech is more polished and effectively conveys the speaker's excitement and passion for the chosen time period. The grammar and sentence structures are improved, making the speech easier to understand and follow. The use of the term **Willem type** has been removed, making the speech more universally understandable. The revised speech is more concise and effectively conveys the speaker's desire to witness and learn from the past.

Benefits

- Enhances confidence: Speaking for 2 minutes on a topic helps boost your self-assurance and ease in expressing your thoughts in English.

- Improves fluency: Regular practice in this mode helps you develop a natural flow of speech and reduces hesitation while speaking.

- Expands vocabulary: Challenging yourself to speak for 2 minutes exposes you to new words and phrases, expanding your English vocabulary.

- Sharpens thinking skills: This mode encourages quick thinking as you need to come up with ideas and organize them coherently within a short time frame.

- Builds better communication: As you practice, your ability to convey your ideas clearly and effectively in English improves, enhancing your overall communication skills.

Topic:

Global warming

Conversation Mode:

Native Speaker ⌄

Start

Global warming is an important issue everyone should address as soon as possible and take necessary steps to mitigate it.

"Global warming is a crucial issue that requires immediate attention and action to reduce its impact." A native speaker would phrase it in a more concise and impactful way, while still conveying the same message. This version uses strong words like "crucial" and "immediate" to emphasize the urgency of the issue. Follow-up question: "What steps do you think individuals and governments can take to address global warming?"

Every person should plant as many trees as he or she can and also the government should encourage using eco-friendly things like preventing the usage of plastic bags and such things in order to reduce the global wastage and also use natural products other than products that come from non-renewable sources. This will eventually help to mitigate, help reduce global warming to some extent.

A native speaker could say something like, "It's important for everyone to do their part in mitigating global warming, like planting trees and using eco-friendly products instead of non-renewable ones. The government can also play a role in encouraging these actions." Reasons why a native speaker might say it this way are because it sounds more natural and conversational, and it emphasizes the shared responsibility for addressing global warming rather than just placing the burden on individuals or the government alone. Follow-up question: What do you think are some other ways that individuals or governments can combat global warming?

using bicycles for less distances and eating more vegetables, making use of less energy at home like not frequently turning on appliances, electrical appliances like ACs etc.

A native speaker might say "Using bicycles for shorter distances and incorporating more vegetables into our diets, as well as reducing energy consumption at home by limiting the use of appliances such as ACs can all help combat global warming." This phrasing is more concise and uses active verbs to convey the same message. A follow-up question could be: "What other actions can individuals take to reduce their carbon footprint and combat global warming?"

Hold to Record

Benefits

- Learn from Native Speakers: The Native English Speaker Mode teaches users everyday phrases and ways of speaking like a native speaker, helping them sound more natural.

- Grammar improvement: By receiving instant feedback and corrections, users can quickly learn from their mistakes and improve their grammar.

- Fun Learning: Talking with the AI in conversational mode makes learning English enjoyable and exciting, which is more effective than traditional learning methods.

Quick-Wit Writing

Welcome to the Write a paragraph in 2 min mode

Rules

1. Tap "I understand" to begin.
2. Preview the topic for 5-10 seconds, then start to type your thoughts
3. Type your thoughts within 2 min – you will be stopped automatically if you go over the limit.
4. Hit "start analyzing" to receive feedback and learn from your mistakes – the key to personal growth!

Perks

🚀 Boost your writing speed & efficiency
🧠 Sharpen your thought process & critical thinking
💡 Enhance creativity & expressiveness
📈 Track your progress & growth
🏆 Build confidence in your writing abilities

Write for 2 min ✏️

Topic: Childhood Memories

Description: Write about your favorite childhood memory, what made it special, and how it impacted your life.

Time up...

I remember the first time I went to school in my childhood. At first, I felt so uncomfortable and cried a lot of times and later I enjoyed it every much.

153/1000

Start Analyzing

Feedback on your writing

The paragraph about the first day of school in childhood is relevant to the topic of childhood memories. The author has effectively conveyed the emotions and experiences of a significant moment in their life. The grammar and sentence structure are clear and easy to understand. However, there are some areas where word choice could be improved to enhance the impact of the story.

Revised version of your writing

Revised version: The first time I went to school in my childhood, I felt incredibly uncomfortable and cried many times. However, as time went on, I grew to enjoy school very much. This memory is special to me because it reminds me of how difficult it can be to adapt to new situations, but also how rewarding it is to push through those challenges.

How the revised version is better than the original version

The revised version of the speech is an improvement on the original, with changes made to enhance the impact of the story. The use of stronger verbs and more descriptive language makes the experience more vivid and engaging for the reader. The revised version also conveys a clear message about the importance of perseverance and the rewards that come with overcoming challenges. Overall, the revised version is a more effective and memorable piece of writing.

Benefits

1.Better writing/typing speed: Practicing writing with a timer helps improve your writing speed, making it easier for you to express your thoughts more quickly and efficiently.

2.Boosts critical thinking: Writing under time constraints encourages you to think critically and generate ideas more rapidly, which is essential for effective communication.

3.Develops time management skills: Learning to write within a specific time frame trains you to manage your time effectively, which can be beneficial in various aspects of your personal and professional life.

Quotes Quench

Welcome to the Quotes mode

Rules

1. Click the "I am ready" button and you will be presented with a quote.
2. Study the Quote: Examine the quote's words, phrases, and grammar, understanding its meaning.
3. Complete the Assignment: Engage with the AI-driven assignment related to the quote, which may include using specific words or phrases, or replicating the tone of the quote in a response.
4. Learn from Feedback: Review AI feedback, noting areas for improvement, and apply these learnings in future practice.

Perks

- Expand Vocabulary: Improve your language by learning new words and phrases used in famous quotes.
- Grammar Insights: Understand and apply proper grammar from expertly crafted sentences.
- Enhanced Expression: Develop a more eloquent and persuasive speaking style.
- Inspiration Boost: Draw motivation and wisdom from influential figures and their timeless words.
- Practice Makes Perfect: Apply the learned phrases and words in everyday conversation to solidify your skills.

🔥 I am ready

Quote: To acquire knowledge, one must study; but to acquire wisdom, one must observe.
Author: Marilyn vos Savant.
From this quote, I could learn the importance of observation in gaining wisdom, as opposed to simply studying for knowledge. The sentence structure is simple and straightforward, with a clear parallelism between the two clauses.
Assignment: Write a paragraph discussing a personal experience where you gained wisdom through observation rather than study.

I saw an interview featuring elon musk. After knowing all the hard work he has done to achieve it, not caring health to all, has motivated so much that one could achieve anything if he believes what he does.

Great start! Just a few small changes to make it flow better:
I gained wisdom through observation rather than study when I watched an interview with Elon Musk. Learning about his incredible work ethic and willingness to sacrifice his health for his goals inspired me to believe that anything is possible if you truly believe in yourself.
Assignment based on the quote: Write a paragraph about a time when you gained knowledge through study, but still lacked wisdom in the situation.

When I completed my 10th standard, I realized that whatever I have learnt from the subjects (most of them) haven't had much use for me when I progressed in my future.

Your sentence is clear and concise, but could benefit from some minor grammatical adjustments. Here's a revised version: **After finishing 10th grade, I realized that much of what I had learned in my subjects was not useful for my future.**
One-liner assignment: Reflect on a time when you gained wisdom through observation rather than studying.

Text Input ⌄ | Send

Benefits

1.Enhance Vocabulary and Expression: The quotes mode exposes users to well-crafted phrases, words, and grammar from renowned sources, expanding their vocabulary and helping them adopt eloquent ways of expressing themselves.

2.Engaging Learning Experience: Through interactive assignments and personalized feedback based on famous quotes, users can practice and refine their speaking and writing skills in an enjoyable and motivating manner.

Transcribed Text

So, a binary search algorithm is basically the fastest searching algorithm but it only works in a sorted array. So the basics of how a binary search algorithm works is that it tries to find the element in the middle of the array. If it doesn't, then it will look for the condition whether the element that is to be searched is greater than the middle element. If it is, then it will switch to the right half of the array. If it is less than the middle element, then it will search on the left half of the array and this procedure repeats till it finds the element. That's how binary search algorithm works.

Feedback on your speech

The speech could benefit from more context around the code, such as explaining what binary search is and why it's useful. Additionally, some of the language used in the speech, such as **high** and **low,** may be confusing for those unfamiliar with programming terminology. Suggestions for alternative phrases could be **upper bound** and **lower bound.**

Revised version of your speech

Revised speech: "Binary search is a common algorithm used in computer science to efficiently search for a specific element in a sorted array. In Python, we can implement this algorithm using the binarySearch function. The function takes in an array, the element we're searching for, and the boundaries of the search range. It then uses a while loop to repeatedly divide the search range in half, comparing the middle element to the target element until it finds a match or determines that the element isn't present. If the element is found, the function returns its index. If not, it returns -

How the revised version is better than the original version

The revised speech is much clearer and more informative than the original, providing more context and explanation for those who may not be familiar with programming concepts. The use of alternative phrases for **high** and **low** makes the speech more accessible to a wider audience. Overall, the revised speech effectively communicates the purpose and implementation of binary search in Python.

Interview Mode

Job Description

Provide a brief description of the job you are applying for.

In This Role, You Will
Participate in formal internship program and workshops
for low complexity initiatives within Internship Program
Review various assignments to become familiar with
policies and procedures for which answers can be quickly

Short Note on About Company

Provide a brief note about the company you are applying to.

Wells Fargo & Company (NYSE: WFC) is a diversified,
community-based financial services company with
approximately $1.9 trillion in assets. Wells Fargo's vision
is to satisfy our customers' financial needs and help them
succeed financially. Founded in 1852 and headquartered

Thank you for applying for this role. Based on your experience and skills, I believe you meet the required qualifications. Can you tell me about a project or assignment you worked on that involved low-to-medium risk tasks and deliverables? How did you ensure compliance and manage any potential risks?

I did a project which is auto detect text on number plates on moving vehicles. It felt like a real challenge since you've got to deal with a real time processing system that takes in captcha and make the SoTa machine learning model to assess and detect the text properly and fastly. Nonethless, with careful scruitinance, I was able to lead my team to success and able to drop it to real use.

Feedback: Your answer showcased your experience in machine learning and how you were able to lead a team to success in a challenging project. However, it would have been helpful to hear more about how your skills and experience align with the job description and required qualifications. Additionally, try to avoid using buzzwords and jargon that may not be familiar to the interviewer.
Next Question: Can you tell me about a time when you had to collaborate with others to achieve a goal? How did you approach the situation and what was the outcome?

I did a YOLOv7 project where I need to show real time image detection through a mobile phone. Me and my friends discussed a lot of potential ideas, worked together, kept the motivation inspite of failtures. The outcome at the end is really frutiful, we were able to design a mobile app that detects objects in real-time.

Feedback: Your answer highlights your ability to collaborate with others to achieve a goal, which is a valuable skill for this role. However, it would have been better if you had tied your answer more closely to the job description and the required qualifications. In your next answer, try to focus on how your skills and experiences align with the job requirements.
Next Question: How do your skills and experiences make you a good fit for this role?
